- HTML 5, CSS3, JavaScript (ES6+), Responsive & Mobile first Design
- React.js, Next.js
- Tailwind CSS, Bootstrap

Backend Development

- PHP (Laravel, CodeIgniter)
- Java, RESTful API's
- WordPress
- Elementor & Custom Code, WooCommerce

Databases

- MySQL, PostgreSQL
- Mango DB

Tools & Libraries

- Git & GitHub, Npm
- Figma (UI to Code)

Testing & Deployment

- Manual testing & debugging
- Web hosting & deployment
- Performance optimization

IT Support & systems

- Linux, Windows OS
- Hardware & Network
- MCSE and CCNA

Soft Skills

- Team Collaboration
- Time Management

Education

Bachelor of Computer Applications (BCA)

From Osmania University (INDIA)
Graduated 2021

Summary

Web App developer and IT support professional with strong experience in modern web technologies, system support, and customer-focused problem solving.

Career history

Web Application developer at Octonion Design (India)

Oct 2021 – Feb 2023

Built full-stack web applications, transforming designs from **Figma into functional, responsive websites**. Worked closely with clients and teams to deliver high-quality solutions.

Key Responsibilities:

- Developed frontend interfaces using **HTML, CSS, JavaScript, React.js**.
- Created backend functionality with **PHP and Laravel**.
- Integrated databases and built **RESTful APIs**
- Performed testing, debugging, and deployment of web applications.

Achievements:

- Successfully delivered **15+ client projects** on time with full responsiveness.
- Improved application load speed and stability through optimized code.
- Introduced reusable frontend components that reduced development time by **20%**.

Web Application developer at Asandwhen (India)

Feb 2023 – Dec 2023

Worked on client-driven web applications, focusing on **modern frontend frameworks and efficient backend solutions** to enhance user experience.

Key Responsibilities:

- Built responsive UI using **React.js, Tailwind CSS, and JavaScript**.
- Developed backend logic and database operations with **Laravel**.
- Tested and debugged applications across browsers and devices.
- Worked with team members to implement feature enhancements.

Achievements:

- Successfully delivered client projects with **zero critical bugs**.
- Optimized web apps for faster loading and smooth navigation.
- Gained recognition for efficient problem-solving and collaboration.

Web Development Training

from Naresh i Technologies (India)
Graduated 2020

Hardware & IT Certifications

from Key groups of Technology (India)
Graduated 2019

Higher Secondary (12th Grade)

from Aibak High School (Afghanistan)
Graduated 2015

Web Developer / IT Support at Khudkar Tech (Afg)

Feb 2019 – Apr 2020

Provided a mix of **web development and IT support**, helping the company maintain websites and resolve technical issues efficiently.

Key Responsibilities:

- Developed websites using HTML, CSS, JavaScript, PHP.
- Installed, configured, and maintained Windows and Linux systems.
- Troubleshoot hardware, software, and network problems.
- Assisted staff with technical support requests and system issues.

Achievements:

- Successfully deployed and maintained multiple client websites.
- Improved internal IT processes, reducing downtime for staff.
- Built foundational experience in full-stack development and IT support.

Inbound Support / Problem Solver at Amazon BWU2 (AU)

Nov 2024 – Present

Working in a fast-paced Amazon Fulfillment Centre, analysing and resolving issues related to **inventory, items**, and operational processes to ensure smooth warehouse operations.

Key Responsibilities:

- Conduct research and troubleshoot discrepancies with items in the FC, ensuring accurate stock management.
- Investigate, and resolve process or system-related problems using internal Amazon tools.
- Collaborate with team members to maintain workflow efficiency and accuracy.

Achievements:

- Improved inventory accuracy by identifying and resolving recurring item issues.
- Recognized for consistently resolving problems efficiently and meeting operational targets.
- Contributed to process improvements that enhanced team productivity and reduced errors.

Interests

- Cybersecurity and ethical hacking
- Exploring new programming languages and frameworks
- Problem-solving and troubleshooting technology issues
- Learning about cloud technologies and hosting solutions
- Tech blogging or sharing knowledge with peers
